## Personal Profile

I use a range of techniques from differential geometry, geometric analysis and algebraic geometry to study moduli spaces in gauge theory, with particular emphasis on moduli spaces of Higgs bundles and quiver varieties. I have proved new results in Morse theory with a view to computing topological invariants of these moduli spaces, as well as understanding the algebraic structures that arise on the associated Morse complex. In my work I have shown that these structures have a number of surprising connections with Nakajima's constructions in Geometric Representation Theory.

## Employment History

- Aug 2019 - present** - [University of York](#) *Lecturer*
- Jul 2011 - Jun 2019** - [National University of Singapore](#) *Assistant Professor*
- Aug 2009 - Jun 2011** - [University of Colorado](#) *Burnett Meyer Postdoctoral Instructor*
- Jul 2006 - Jun 2009** - [Johns Hopkins University](#) *J.J. Sylvester Assistant Professor*

## Education

- 2001-2006** PhD in Mathematics - [Brown University](#)  
**Thesis title** An analytic stratification of the space of Higgs bundles  
**Thesis Advisor** Georgios Daskalopoulos
- 1994-1999** B.Sc. (Hons) / B. Eng. (Hons) - [University of Melbourne](#)  
*First class honours in Mathematics*  
*First class honours in Electrical Engineering*

## Publications

1. G. Wilkin, *Morse theory for the space of Higgs bundles*, **Communications in Analysis and Geometry**, Vol. 16, No. 2 (2008), pp283-332.

## Invited Talks

### Lecture series

- |                  |   |
|------------------|---|
| <b>July 2018</b> | <i>An introduction to Morse theory</i> (6 hour lecture series)<br>Insitute for Geometry and its Applications, University of Adelaide        |
| <b>May 2016</b>  | <i>Algebraic classification of Yang-Mills-Higgs flow lines</i> (3 hour lecture series)<br>KIAS workshop on Higgs bundles and related topics |
| <b>July 2015</b> | <i>Lectures on the moduli space of Higgs bundles</i> (8 hour lecture series)<br>University of Science and Technology China                  |

## Conference/Seminar talks

- Nov 24, 2020** *Equivariant Morse theory on singular spaces*  
Rutgers University Geometric Analysis Seminar
- May 13, 2020** *The topology and geometry of spaces of Yang-Mills-Higgs flow lines*  
Conference "Yorkshire-Durham Geometry Day"  
University of Leeds
- Feb 11, 2020** *Morse theory on singular spaces*  
University of Oxford Geometry and Analysis Seminar
- Jan 13, 2020** *Morse theory on singular spaces*  
University of Edinburgh Geometry Seminar (EDGE)
- Jul 26, 2019** *Representations of the Heisenberg algebra on a singular Morse complex*  
University of Adelaide Differential Geometry Seminar
- Dec 20, 2018** *Representations of the Heisenberg algebra on a singular Morse complex*  
Conference "Character Varieties and Topological Quantum Field Theory"  
University of Auckland
- Oct 25, 2018** *Representations of the Heisenberg algebra on a singular Morse complex*  
Conference "Recent Developments in Higgs Theory"  
Laboratory of Mirror Symmetry, Higher School of Economics, Moscow
- Aug 3, 2018** *The topology and geometry of spaces of Yang-Mills-Higgs flow lines*  
University of Melbourne Pure Mathematics Seminar
- Jul 31, 2018** *The topology and geometry of spaces of Yang-Mills-Higgs flow lines*  
University of Queensland Pure Mathematics Seminar
- Jul 27, 2018** *The topology and geometry of spaces of Yang-Mills-Higgs flow lines*  
University of Adelaide Differential Geometry Seminar
- Sep 27, 2017** *Equivariant Morse theory on singular spaces*  
Stanford University Geometry Seminar
- May 15, 2017** *Equivariant Morse theory on singular spaces*  
University of Maryland Geometry Seminar
- May 9, 2017** *Equivariant Morse theory on singular spaces*  
Brown University Geometry Seminar
- May 6, 2017** *The reverse Yang-Mills-Higgs flow in a neighbourhood of a critical point*  
Conference "Geometry and Physics of Augmented Bundles"  
University of Illinois, Urbana-Champaign
- Feb 21, 2017** *The reverse Yang-Mills-Higgs flow in a neighbourhood of a critical point*  
University of Colorado Geometry Seminar

- Jun 16, 2016** *The reverse Yang-Mills-Higgs flow in a neighbourhood of a critical point*  
Conference "New perspectives on Higgs bundles, branes and quantisation"  
Simons Centre for Geometry and Physics
- Jan 11, 2016** *An algebraic description of Yang-Mills-Higgs flow lines*  
Conference "Vector Bundles on Algebraic Curves"  
Centre Interfacultaire Bernoulli, Ecole polytechnique federale de Lausanne
- Oct 9, 2015** *Classification of Yang-Mills flow lines*  
Conference "50 years of the Narasimhan-Seshadri theorem"  
Chennai Mathematical Institute
- Aug 5, 2015** *Morse theory on singular spaces*  
ISAAC 2015 Conference, Special Session on Complex Geometry  
University of Macau
- Jun 12, 2015** *Morse theory for Higgs bundles*  
2015 joint meeting of the AMS and EMS  
Special Session on Higgs Bundles and Character Varieties  
University of Porto
- Sep 25, 2014** *Topology of moduli spaces of Higgs bundles*  
University of Science and Technology China Geometry Seminar
- Jun 17, 2014** *Moment map flows and the Hecke correspondence for quivers*  
Workshop on the Geometry and Physics of Moduli Spaces  
ICMAT Madrid
- Nov 4, 2013** *Moment map flows and the Hecke correspondence for quivers*  
Workshop on Geometry and Representation Theory  
University of Hong Kong
- Sep 2, 2013** *Moment map flows and the Hecke correspondence for quivers*  
University of Maryland, Geometry and Topology Seminar
- Jul 2, 2013** *Moment map flows and the Hecke correspondence for quivers*  
Asian Mathematical Conference  
Busan, South Korea
- Mar 1, 2013** *Moment map flows and the Hecke correspondence for quivers*  
Conference on Differential and Algebraic Geometry related to bundles  
Tata Institute for Fundamental Research
- Sep 26, 2012** *Moment map flows and the Hecke correspondence for quivers*  
National Tsinghua University Geometry and Topology Seminar
- Feb 21, 2012** *Morse theory and Nakajima quiver varieties*  
University of Colorado Geometry Seminar

- Feb 20, 2012** *Some applications of Morse theory*  
University of Colorado Colloquium
- Feb 7, 2012** *Topology of moduli spaces of  $U(2, 1)$  Higgs bundles*  
Workshop on moduli spaces of representations  
Institut Henri Poincare
- Sep 19, 2011** *Cohomology of Higgs bundle moduli spaces*  
National Tsinghua University Geometry and Topology Seminar
- Apr 15, 2011** *Moment map flows and the Hecke correspondence for quivers*  
University of Wisconsin Geometry and Topology Seminar
- Mar 7, 2011** *Moment map flows and the Hecke correspondence for quivers*  
National University of Singapore
- Feb 10, 2011** *Moment map flows and the Hecke correspondence for quivers*  
University of Sydney
- Jan 31, 2011** *Moment map flows and the Hecke correspondence for quivers*  
University of Missouri
- Dec 1, 2010** *Moment map flows and the Hecke correspondence for quivers*  
Brown University Geometry and Topology Seminar
- Jun 17, 2010** *Morse theory and stable pairs*  
Conference “Vector Bundles on Algebraic Curves”  
Instituto Superior Tecnico, Universidade de Lisboa
- May 13, 2010** *Morse theory and stable pairs*  
Workshop on Bundles on Projective Varieties  
Tata Institute for Fundamental Research
- Mar 23, 2010** *Morse theory and stable pairs*  
Duke University Geometry and Topology Seminar

## Grants

- Aug 2018 - Jun 2019** **Geometry and topology of singular spaces**  
NUS Academic Research Fund Tier 1 Grant
- Sep 2014 - Jan 2018** **Morse-Kirwan theory on singular spaces**  
NUS Academic Research Fund Tier 1 Grant
- Aug 2011 - Dec 2014** **Geometry and Topology of moduli spaces of Higgs bundles and quiver varieties**  
NUS Startup Grant

## Conference Organisation

- Aug 1-19, 2016**      [Geometry, Topology and Dynamics of Moduli Spaces](#)  
[Institute for Mathematical Sciences, Singapore](#)  
A three week program consisting of two conferences and a week for collaborative work.  
96 participants, including 17 graduate students.
- Jul 7-Aug 29, 2014**      [The Geometry, Topology and Physics of Moduli Spaces of Higgs Bundles](#)  
[Institute for Mathematical Sciences, Singapore](#)  
An eight week program consisting of a summer school, two conferences  
and time for collaborative work.  
136 participants, including 29 graduate students.
- Apr 14-Jul 11, 2014**      [Research Term on the Geometry and Physics of Moduli Spaces](#)  
[ICMAT, Madrid](#)  
Three month program including a summer school and two workshops.
- Aug 19-26, 2006**      [The topology of hyperkähler quotients](#)  
[Banff International Research Station](#)  
Research in Teams Workshop

## Student Supervision

### Supervision of graduate students

- Semin Kim** Brown University (co-supervisor)  
Graduated May 2017  
Thesis title: *Harmonic Maps and the Moduli of Higgs Bundles*  
Currently employed as a software engineer at Bloomberg, New York
- Teo Yi Han** National University of Singapore  
Graduated June 2020  
Supported by a [National University of Singapore Research Scholarship](#)  
Thesis title: *Branes in the moduli space of Higgs bundles*  
Currently employed as an Instructor at the National University of Singapore

### Supervision of final year project students at the National University of Singapore

*These students spent one year working on an undergraduate thesis under my supervision*
